Katie and Kristina,

Dr. Galouzis is not taking trauma call. I apologize for the confusion. Our surgeons that are taking trauma call are Dr. Frawley, Dr. Woo, and Dr. Mueller.

I have asked the ACS for proof of his having taken the class, just in case the committee still need it despite him not taking trauma call here. Per the email they sent me in February his certification for ATLS expired on 02/18/1999. I have asked the ACS to send a letter to verify this. I do have a copy of the February email they sent me. I have attached his board certification.

I have attached a rundown of CME for Dr. Woo. Please let me know if you also want the list from the conferences attached to this.

We struggled with attendance at the trauma meetings from all disciplines initially. We have been working increase attendance of all disciplines.

Thank you,  
Jennifer

Subject: Applications

The designation subcommittee will be reviewing your applications on Monday the 19th. If the committee has any follow-up I will send you an email no later than close of business on the 20th. Please know that we need the follow-up questions answered as quickly as possible so that The designation sub committee can review what you have sent and then make a recommendation at the trauma care committee meeting. I highly recommend having representatives from your facilities at the trauma care committee meeting so that if the committee has any additional questions you are on site to address them.

Let me know if you have any questions or concerns in the meantime.

Thanks,
